¿Cómo es el clima en Tokio en verano?

01:57 PM

¡Excelente pregunta! El clima en Tokio en verano es muy caluroso y húmedo. Las temperaturas suelen estar entre 25 y 35 grados Celsius. También llueve mucho durante el verano. ¿Te gusta el clima caluroso?

01:57 PM

Prefiero temperaturas más frescas. ¿Cuál es el mejor momento para visitar?

01:58 PM

¡Comprendo perfectamente! Para temperaturas más frescas, te recomiendo visitar Tokio en primavera (marzo-mayo) o en otoño (septiembre-noviembre). En primavera puedes ver las flores de cerezo, que son muy bonitas. En otoño, el clima es agradable y las hojas cambian de color. ¿Te interesa más la primavera o el otoño?

Feedback

Great job!

Great use of 'prefiero' to express preference

Excellent sentence structure with 'Cuál es el mejor momento'

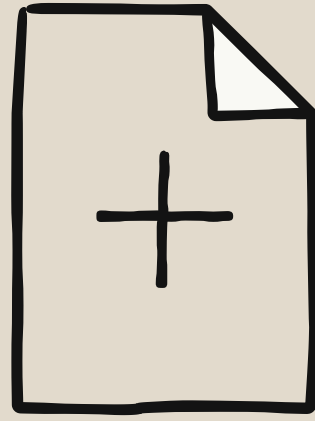

Using more complex vocabulary like 'temperaturas más frescas'

Analysis & decision support

5 Whys

Answer "why" five times and work with Claude to discover the root cause, solutions, and insights.

🎯 Define your problem

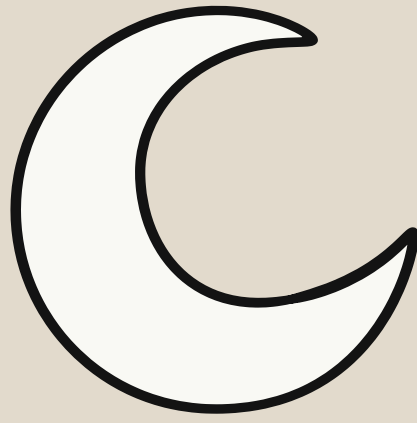

I keep procrastinating on important personal projects even though I want to complete them

1 Why #1

Other tasks get in the way and I feel like the conditions need to be perfect before I can start

2 Why #2

A tool to help teams get to the root of problems through the “5 whys” framework

Apps for fun

Tell me about your dream...

I was chasing my childhood dog through a grocery store, but every time I got close, he turned into a flock of paper airplanes that flew toward the ceiling. When I woke up, I could still hear the sound of his barking mixed with the rustling of paper wings.

Interpret dream
